Most beaches do not have sun lounges for rent so please take towels, chairs, and drinks and anything else you want to do on the beach!

### **Smugler's Cove**

This is considered to be one of the most idyllic beaches. There is a long and bumpy track going west from Long Bay. There is fine white sand and is very quiet. The water is usually flat and calm and with great snorkling.

This is another popular surfing beach and has a strong undertow at the corners of the beach. However, many swimmers enjoy this beach, and the waves, simply by swimming away from the corners of the beach and at a safe depth. The beach extends very gradually, allowing swimmers to range far from the shore. There are two bar/restaurants at Josiah's Bay.

trailhead (coming from the south)  
leads to a longer route (55 minutes)

is shorter but steeper. Either climb can  
be made by anyone in average  
condition with ordinary shoes. We  
would advise you make sure you take
