Professional profile

Dr Will Wallis is a Consultant Interventional Cardiologist. He qualified in 1986 at St Thomas' Hospital, London, having undertaken pre-clinical training at Pembroke College, Cambridge. He continued his training to become a Specialist Registrar in Cardiology at St Thomas' Hospital, The Royal Brompton Hospital, The London Chest Hospital, and latterly St Bartholemew's Hospital.

He spent 2 years at UCL undertaking research into Left Ventricular Hypertrophy for his PhD which was awarded in 1997.

Dr Wallis is currently a consultant Interventional Cardiologist at West Herts NHS Trust and is the training lead in Cardiology at Watford General Hospital. He has a large general cardiology practice and is happy to see all referrals for consultation, invasive, non-invasive investigation, percutaneous coronary intervention, and permanent pacing.
